

Indian Institute of Information Technology, Allahabad

Minutes of 5th meeting of the SUGC

Venue: Exam Cell, Admin building, IIITA

Date and Time: May 23, 2016 at 11:00AM

The 5th meeting of SUGC was held on 23/05/2016 in the Exam Cell at 11:00AM. The following members were present:

1. Dr. BS Sanjeev – Chairman
 2. Dr. Manish Goswami – Member
 3. Dr. Manish Kumar – Member
 4. Dr. Pavan Chakraborty - Invitee
 5. Dr. PK Saini – Invitee
 6. Mr. R Banerjee – Invitee
- No student observer attended the meeting.

The issues discussed and the recommendations made were as follows:

1. Regarding approval of leave for Mr. Anujraaj Goyal and other students with short attendance

- a. Mr. Anujraaj Goyal (IIM2014002) submitted documents to show that due to illness he could not meet the attendance requirements in *Principles of Communication* (EPOC432C). He requested approval of leave by which he would be able to meet the minimum attendance requirements. He claimed that he did not submit his leave application within time limit as he was not aware of the rule. Following this request to the Chairman (Senate), SUGC was asked to place the issue for the consideration of Senate as an appeal. After examining the issue and relevant documents, SUGC recommends that his leave be approved allowing him to obtain minimum attendance in the aforementioned course.
- b. Undergraduate students with short attendance (<50% attendance, Annex 1) were provisionally allowed to appear in the end semester exams pending approval of Senate. They were requested to approach the concerned DUGC for redressal before 20/5/2016. Based on the final inputs, SUGC agrees with the recommendation of the DUGCs that all students, except for Mr. Anujraaj Goyal (IIM2014002) previously discussed, may be awarded F-grade in the concerned subjects and be disqualified to appear in the upcoming (July 2016) backpaper examination.

2. Regarding prerequisites and introduction of E-grade

- a. Currently, a student with F-grade in some subject, say X_1 , is not allowed to register to another subject, say X_2 , if X_1 is a prerequisite for X_2 . The concept of E-grade was considered to benefit such *failed* students who have *adequate exposure* to X_1 so that they may register for X_2 . As far as X_1 is considered, the student with E-grade is equivalent to the student with F-grade. The only distinction between E-grade and F-grade is the difference in terms of qualification to register for any subject that has X_1 as a prerequisite. The SUGC recommends that the following criteria may be used to distinguish the students who are unable to obtain a passing grade into E and F grades:

To obtain an E-grade, a student *must* obtain at least 25% of maximum marks obtained by any student when only the mid-semester and end-semester marks are considered for all students in the concerned subject. The student who fails to obtain even E-grade shall be awarded F grade. For example, if in a subject the highest marks obtained by any student considering only mid- and end-semesters are 80 out of 105 for a 3-credit course, to obtain an E-grade instead of an F-grade a student must obtain corresponding marks of at least 20.

- b. Except in case of lab-only subjects or stated explicitly otherwise in the course structure, the prerequisites should refer only to the theory grades of the results.

3. Regarding expansion of SUGC

Given that the vast majority of the students are undergraduates, it was felt that SUGC may be expanded to have wider inputs and representation. After extensive discussion, SUGC recommends that the following additional members may be included in SUGC:

- a. Deputy Registrar (Acad) – Member secretary. The role of a member secretary shall be to prepare agenda and minute the proceedings of the SUGC meetings.
 - b. Assistant Registrar (Acad) – Special invitee
 - c. Chairman SPGC – Special Invitee
 - d. One on campus student observer from RGIIT recommended by Gymkhana
 - e. One on campus student observer from IIIT Lucknow recommended by Gymkhana
 - f. Up to a maximum of two UG students who may attend as observers. These students will be chosen from the interested applicants by SUGC Chairman for each meeting.
- None of these new members would be signatories to the SUGC minutes.

4. Regarding final semester project for B.Tech (IT) students

B.Tech (IT) had its final semester as a project semester where students were allowed to pursue internship elsewhere. However, beginning this academic year the pure project semester is being discontinued. Following this, the concerned students approached DUGC (IT) requesting to allow 8th semester as a project semester as was the earlier practice. The arguments put forth favouring project semester were as follows:

- a. Provides industrial exposure
- b. Startups companies offer job based on internships
- c. Many times internship gets converted to a job
- d. Students did not apply for summer internship this year due to lack of awareness

Based on the request from the students as well as DUGC (IT), SUGC requests Senate to discuss the issue.

5. Regarding approval of request for Mr. Akhilesh Soni to consider the backpaper examination as end semester exam

Mr. Akhilesh Soni (IEC2015033) was diagnosed with chickenpox on April 29, 2016. He then left for home for isolation and medical attention thereby missing his end semester examinations that began a week later. The SUGC agrees with the recommendation of the HoD (ECE) that the concerned student's backpaper examination be considered as his end semester exam and recommends awarding 'I' grade for the Jan-Jun 2016 semester.

(Dr. Manish Goswami)

(Dr. Manish Kumar)
